Renewed Petition under 37 CFR 1.1137 (b)

Dear Ms. Hicks:

Further to a conversation with Ms. Latrice Bond earlier today, we are writing to request a reconsideration of the "petition for revival of an application for patent abandoned unintentionally for the following application:

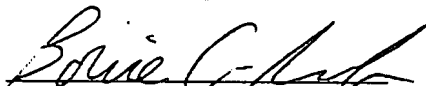

Application No.: 08/637/176
Filing Date: 04/24/96
Inventor: Bowie G. Keefer et al
Title of Invention: FLOW REGULATED PRESSURE SWING ADSORPTION

In response to the petition dismissal dated June 16, 1999, we are submitting a corrected copy of the petition originally filed on November 25, 1998 with the statement for unintentional delay signed by both applicants.

As requested, we have revised the amendment dated July 6, 1998 to include the signature of the second inventor. We have also corrected the street number for the address listed on the aforementioned amendment, as it is incorrect.

On page two, paragraph one of the dismissal, it was indicated that the petition lacks the statement of intentional delay. If required and as a supplement to the petition we are submitting the signed statement as follows:

"The entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37CFR 1.137 (b) was unintentional."

Bowie G. Keefer 07/23/99

David G. Doman 07/23/99

Thank you for your assistance with this matter and please advise if there are any further requirements.

Yours truly,

Bowie G. Keefer
